Apparent age and gender dataset

1. Original data

   Number of photos in total: 3692

	child	young	adult	elder
male	325	415	794	439
female	387	501	605	226

2. Data augmentation – flip horizontally

   Number of photos in total: 7384

	child	young	adult	elder
male	650	830	1588	878
female	774	1002	1210	452

   The name of the flipped version of photos start from the ending number of the original data of each class.

   EX: child   Original:0.jpg~323.jpg

   Flipped version: 324.jpg~647.jpg

■ Reminder:

1. You are only allowed to use this dataset in the project

2. The dataset is for NCTU ML2017 final project used only.
